

Doctor Who Exhibition 2011

Classes 3 & 4 were able to enjoy a trip to London to see the Doctor Who exhibition. The reason for going? Not just to enjoy a day out but to understand a bit more about their theme for the term - 'Fantasy'. For some it all seemed a bit too real!

Nathan writes: Go to the Dr Who exhibition in the O2 for a once in a life time opportunity. While there you can see the old Tardis before your very own eyes. If you like Dr Who go now!

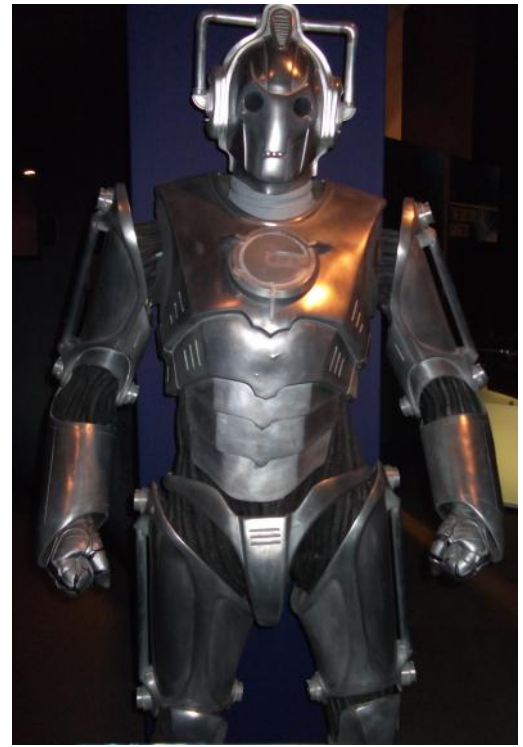

The daleks proved popular. Some were brave enough to stand in front, others were happier to stand behind! **Morgan writes:** This (above right) is my favourite because it looks really silly! It sucks people up with its tummy and their heads pop out. There were lots of other people there. At the end we went to the shop. I bought a magazine and a pencil case came with it.

Grace writes: This is some of Class 3 standing in front of an old dalek. It was great as you could see the real creatures and Tardis.

Nathan writes: The Dr Who Experience part was the best. This is the cyberman and there were all the heads of the cyberman throughout the years. Impressive and realistic! Lots to see.

A few aliens appeared on the return journey.
