

Razmataz!

Class 4 have been introduced to the world of Business! LVC, which is the secondary school most Year 6 pupils move on to, is a Business and Enterprise School and they have helped fund a small business enterprise venture for Class 4. They chose to design and produce keyrings and, having formulated a business plan with the help of Mrs Brewin and Mr Dennington, they worked hard to make their own keyring. They have chosen 'Razmataz' as their company name! Their target was to have them made in time for Sports Day and they did it. I hope you were able to purchase one! The money raised came to over £100! half of which is for more sports equipment for school and half is for the 'Teenage Cancer Trust'. Well done everyone! There are still some left to be sold so do purchase one if you haven't done so. They would like to reach £125!
