

'Underfoot Museum Day'

On 8th December 2011 parents and friends were invited to come and see what the children had been working on during the Autumn Term.

Class 2: Lots of strange creatures had appeared in Class 2, quite fierce looking ones, all made by Class 1 & 2. Dinosaurs of every description were on display.

As well as talented children there was one particularly talented dad who very kindly made the large dinosaur model, after his child said he was sure he could make one! It now resides in the school Atrium looking magnificent.
